

Multifuel & Woodburning Installations, Servicing & Maintenance

PanAsh (UK) Limited are able to arrange the installation, servicing & maintenance of any multifuel and woodburning appliance through a team of highly recommended, professional, experienced and qualified independent HETAS registered engineers.

Our independent engineer's expertise in multifuel and woodburning installations is down to their extensive experience in the multifuel and woodburning appliance industry.

They have been installing multifuel and woodburning appliances for a number of years and understand all of the challenges which can and will occur.

Installing a multifuel or woodburning appliance requires some forethought and an understanding of the way in which the specific appliance works.

Our independent expert multifuel and woodburning installers all have the know-how and experience to install any multifuel or woodburning appliance without any problems.

All multifuel and woodburning installation, servicing and maintenance services carried out by our independent engineers meet all legal requirements and industry standards.

PanAsh (UK) Limited can arrange a full installation, servicing and maintenance service for all multifuel and woodburning appliances.

PanAsh (UK) Limited is able to supply and install a range of appliances to suite every individual requirement, inglenook fireplaces, inset stoves, freestanding, modern, traditional and contemporary stoves, fires and cookers.

Before installing any multifuel or woodburning appliance it is essential to understand the way the appliance will operate. All of our team of independent engineers are able to help and guide you with any of these details as they can easily be forgotten, even understanding the temperature at which the appliance will get to when it is in use will restrict the location of where the appliance can be sited.

Our team of independent engineers carry out all installations to the highest standard.

At PanAsh (UK) Limited we can offer a complete design and installation service on all aspects of multifuel and woodburning installations.

If you wish to heat water and/or radiators using a multifuel or woodburning appliance we can advise on system specification and design and advise on the correct choice of appliance that will cope with the demands to be made of it.

PanAsh (UK) Limited always provides well established and experienced engineers whom are able to install and maintain a comprehensive range of appliances to suit all budgets.

All multifuel and woodburning appliances need servicing at some point in their lives, whether you need new stove glass, rope seal or fire bricks we carry extensive spares and are able to get your fire back to working condition fast.

At PanAsh (UK) Limited we recommend an annual service and safety check for all multifuel and woodburning appliances.
